STYLISH MODERN LANDMARK

Meticulously designed to peacefully fit with the surrounding neighbourhood in LB Nagar, with great connections to ORR and proximity to the metro station. Sri Nilayam is a perfect example of understated contemporary architecture. Placed perfectly to soak up just the right amount of sunshine and provide views over the leafy neighbourhood. Despite its modern lines and less-is-more approach, you'll sense a warmth from the building that means the feel of home and not just a place to lay your head.
